

Homework Made Easy (!)

Homework without nagging is much to be desired. Have your child try a homework chart.

What you'll need

- Paper
- Marker, pen, or pencil
- Clock

What to do

1. Have (or help) your child do the following: Create a homework chart out of a sturdy, large-sized piece of paper. Attach a colored marker or pen so that it is always handy. Each day after school, put a check mark in each box in which there is a homework assignment. Circle the check when the homework is complete.
2. Make a new chart for each week. Depending on how many subjects you have, you may be able to put 3 or 4 weeks on each piece of paper.
3. Try to figure out how long it will take to complete homework assignments so that you know when you need to start working.

Subject	Mon.	Tues.	Wed.	Thur.	Fri.
Arts					
English					
History					
Math					
Science					

A homework chart can show exactly what needs to be done when, and gives a feeling of accomplishment when an assignment is crossed off.

Talk to you child about homework. Does your child need or want more time or help? Does your child want to devote more time to learning about a certain subject?
